CORE HIGHLIGHTS

- Delivered Microsoft 365 cloud solutions across identity, security, and collaboration platforms.
- Led migrations and onboarding projects for Exchange, Teams, SharePoint, and Intune
- Automated administration tasks and compliance reporting with advanced PowerShell scripting
- Integrated Microsoft 365 with JIRA to streamline project tracking and collaboration.
- Supported security & compliance initiatives including DLP, Purview, MFA, and Conditional Access
- Experienced with Copilot deployments and earned Microsoft Applied Skills in Preparing & Securing M365 Environments for Copilot

DELIVERY & CLOUD TRANSFORMATION

- 15+ years leading enterprise IT and Microsoft 365 programs, specializing in migrations, onboarding, and cloud adoption.
- Expertise across Microsoft 365, Entra ID, Intune, SharePoint, Exchange Online, and Teams.
- Led tenant-to-tenant, hybrid AD, Google Workspace, and legacy system migrations with minimal downtime.

SECURITY & COMPLIANCE

- Implemented DLP, Purview, retention policies, sensitivity labels, and Zero Trust frameworks.
- Experience with Defender Suite, compliance controls, and regulatory alignment (HIPAA, ITAR, CMMC).
- Applied Skills Certified: Prepare security & compliance to support M365 Copilot
- Applied Skills Certified: Implement information protection & data loss prevention using Purview.
- Applied Skills Certified: Implement retention, eDiscovery, & Communication Compliance in Purview

AUTOMATION & ENGINEERING

- Designed and deployed automation with PowerShell, Power Automate, and JIRA integrations.
- Built apps and Power Automate workflows for onboarding, license provisioning, reporting, and automatic templated document flows.
- Hands-on with Intune Autopilot, device compliance, application deployment, and patch management.

COPILOT DEPLOYMENT

- Microsoft Certified in Copilot & Agent Administrator Fundamentals, and as an AI Business Professional & AI Transformation Leader demonstrating knowledge in Administration, Business Use, & Identifying Business use for AI Technology in M365 & Azure Foundry
- Configured and rolled out Microsoft 365 Copilot across enterprise environments.
- Integrated Copilot with Word, Excel, Outlook, Teams, and SharePoint to boost productivity.
- Ensured secure adoption by aligning Copilot deployments with Purview and Conditional Access.

RECENT IMPACT

- Rolled out Microsoft 365 Copilot deployments across enterprise environments, ensuring secure adoption with Purview and Conditional Access.
- Performing Microsoft Tenant Migrations from Commercial to GCC-High for Compliance. Google Workspace to Microsoft 365 Migrations for Mergers and Acquisitions. Intune Autopilot Deployments. Conducting Tenant Security Reviews for Financial Institutions.
- Strengthened security posture by implementing DLP, retention labels, Defender XDR, and Zero Trust frameworks.
- Delivered automation with PowerShell and Power Automate, streamlining onboarding, license management, and compliance reporting.
- Consistently recognized for driving productivity, compliance, and scalability with Teams (including voice), Intune device compliance, and advanced Purview governance.

EXPERIENCE

Sycomp A Technology Company, Inc. | Remote (Dublin, OH WFH)

Sr. Microsoft 365 Consultant — August 2026 – Current

Key Responsibilities & Impact:

- Leading complex Microsoft 365 implementations, migrations, and transformation projects for enterprise clients.
- Designing and implementing comprehensive security and compliance solutions using Microsoft 365 security features.
- Developing and implementing identity management strategies using Azure AD and Zero Trust methodologies.
- Creating technical architecture documents and solution designs aligned with client business objectives.
- Providing escalation support for complex technical challenges and present technical concepts to client stakeholders at all levels.
- Staying current with Microsoft technology roadmaps and emerging capabilities.
- Leading Microsoft CSP licensing program activities for partnership and customer needs, including onboarding and maintaining relationships.

Network Coverage | Remote (Dublin, OH WFH)

Microsoft 365 Cloud Engineer — November 2025 – August 2026

Key Responsibilities & Impact:

- Leading Microsoft 365 & MDM Migration Projects including: Leading M365 Tenant Migrations for Mergers & Acquisitions, M365 Commercial to GCC-High Migrations for Compliance, Cloud Native Intune/Autopilot Deployments, JAMF MDM Enrollment Migrations.
- Migrate and Develop Power Automate Flows to replace Legacy CRM integrations for Inbound Email Processing Incompatible with GCC-High Environments. Assist in updating Legacy CRM Code with Copilot Help converting Outbound Email functions from Modern SMTP Auth to full REST API as well as Graph Polling & Processing of Files Generated by Inbound Automations.
- Leading M365 Tenant Security Reviews for Financial Institutions.
- Developed the Initial Processes for Deploying App Control for Business in an IME Only Configuration for Clients, replacing previous 3rd party tools.
- Earned the Following Microsoft Certifications: 1) AB-900 Copilot & Agent Administrator Fundamentals, 2) AZ-900 Azure Fundamentals, 3) AB-730 AI Business Professional, 4) AB-731 AI Transformation Leader
- Passed the Microsoft Applied Skills Assessments on Microsoft Purview: Information Protection, Data Loss Prevention, Retention, eDiscovery, & Communications Compliance.
- Developed and Deployed Custom & SharePoint Copilot Agents based on a Company Knowledgebase

2W Technologies, Inc. | Remote (Dublin, OH WFH)

Modern Work Engineer — Dec 2023 – Sep 2025

Key Responsibilities & Impact:

- Delivered successful migrations and onboarding projects to Microsoft Modern Work Stack: Exchange Online, SharePoint Online, Teams, Entra ID, Intune, Purview Compliance, Defender for Business/Endpoint/Office 365, and Microsoft Copilot in hybrid and cloud environments.
- Implemented full initial baseline & custom configurations for Commercial and GCC/GCC-High tenants.
- Led identity/security projects hybridizing and onboarding networks to Intune & Defender XDR (Defender for Office 365, Defender for Endpoint, Defender for Identity).
- Ongoing Defender XDR Secure Score Remediations with MSSP Clients reaching up to 87% without interruptions.
- Directed migrations from 3rd Party Platforms such as Google Workspace and JAMF MDM to M365/Exchange/SharePoint/Intune, improving collaboration, & device and app management.
- Deployed Intune AutoPilot device provisioning in both hybrid joined and cloud native environments and packaged apps for automated rollout.
- Configured Azure Resources for Onboarding and configuring Onprem Servers to Azure Arc Monitoring and Defender for Servers Deployment and Protection
- Documented Standards and Worked with Enterprise clients on the Deployment of Copilot for Microsoft 365
- Documented and Implemented Standards for Conditional Access Enforcement of MFA on all clients onboard including E5 Policies for Risky Users and Sign In Risk
- Configured Advanced Identity Settings such as Privileged Identity Management for Just in Time Administrative Roles and Groups.
- Configured Tenant Data Retention Policies, & Setup Email Auto-Archiving Policies, plus Published Sensitivity Labels, & Configured Data Loss Prevention Policies in Purview Compliance
- Earned the Following Microsoft Certifications: MS-700 (Teams Admin), SC-300 (Identity & Access Admin), MS-102 (M365 Admin Expert), MD-102 (Endpoint Admin)

King Concrete Design Impressions | Columbus, OH (1099 Contract)

Microsoft 365 & Systems Administrator — Jan 2024 – Current (As Needed)

Key Responsibilities & Impact:

- Conducted migrations: Exchange Online, SharePoint Online, and OneDrive, consolidating all prior file servers to cloud native systems. Configured Native Entra join and Intune enrollment for new endpoints;
- Installed & managed Meraki Go firewall & Wi-Fi; migrated DNS, domain registration, and corporate websites.
- Designed and deployed automation with Microsoft Forms + Power Automate, streamlining business processes.
- Performed Secure Score remediation with Defender XDR, strengthening compliance and risk posture. Maintaining the Defender XDR Score at around 85%
- Licensed, Configured, and Deployed Intune Remote Assistance add on for Secure Ongoing Support as needed.
- Ongoing Support Limited to Onboardings and Occasional Troubleshooting. Minimal Hours Consumed in the past 18 Months.

Maven, LLC | Columbus, OH (Hybrid/Remote)

Sr. Systems Administrator, Modern Work & CRM — Mar 2022 – Dec 2023

Key Responsibilities & Impact:

- Served as Maven's technical lead for a tenant-tenant divestiture migration project (120 users of 1500), ensuring smooth M365 separations and transitions.
- Directed the Technical implementation of Dynamics 365 ATS & Sales CRM. Including setting up Visualized Reporting for Sales Forecasting, configuring new table columns & modifying forms, setting up business process rules & automation. Setup API Integration for Access by an Automated Agent.
- Led the corporate I.T. rollout of a new headquarters. Including Dual ISP (Fiber/Coax) Cisco Meraki Firewall & Wireless Access Points, Ubiquiti Switches, & Network Printing. Deployed Company Wide Desktop Workstations Kits with Power Protection, Docking Stations, Monitors & Accessories for Windows and macOS for all employees.
- Developed and validated a SharePoint / PowerApps / Power Automate system for Onboarding new hires Including Approval Flows, User Creation, Automated Group Assignments and Licensing, & Emailing of Onboarding information & documentation.
- Built an integrated & automated Microsoft 365 corporate store management portal leveraging SharePoint, Exchange, Lists, Planner, PowerApps, & Power Automate for a Retail Jeweler.
- Integrated Microsoft 365 with JIRA to streamline project tracking, improve collaboration, and enhance workflow visibility.
- Led the Rollout of Intune MDM for Employee Devices including Windows, macOS, Android, & iOS.
- Consulted with a Local Transit Authority and Provided a 3 Year Road Map for Technology Improvement after a Discovery Period (vCIO Engagement).
- Earned Microsoft Certification: Dynamics 365 CRM Fundamentals ([Exam MB-910, Retired 1/2026](#)).

Avon Contract Automation | Miami, FL (Remote Contract)

Microsoft 365 Administrator — Jan 2022 – Current (As Needed)

Key Responsibilities & Impact:

- Delivered Microsoft 365 tenant setup and administration for HIPAA-compliant startup (legal & medical services).
- Configured tenant security: Exchange Online, SharePoint, OneDrive, and Teams; enabled secure SSO with Entra ID.
- Deployed NetDocuments repository integration, automated compliance workflows, and strengthened system access controls.
- Created I.T. Glue documentation and knowledge base for ongoing tenant support.
- Assisting in Development of Application Design to Enact the new System and Method as required by 2023 Tort Reform Laws in Florida.

Cloud Cover, LLC | Worthington, OH

Consultant & Systems Engineer – Level 3 Support — Jun 2018 – Sep 2021

Key Responsibilities & Impact:

- Oversaw end-to-end projects from scoping through deployment: Office 365 migrations, Exchange cutovers, tenant separations.
- Delivered hybrid migrations using both native third-party tools (BitTitan); applied advanced M365 security (MFA, Defender for 365, cloud app security).
- Installed and managed SEIM tools (Perch Security/Connectwise); integrated sensors for proactive security monitoring.
- Supported hybrid environments: Cisco Meraki, WatchGuard, Ubiquiti firewalls, Dell servers, wireless access points.
- Provided NAS/SAN administration (Synology, iSCSI) and backup/replication (Veeam).
- Deployed Star2Star hybrid VoIP systems and other Cloud VoIP Systems.

InfoGuard, LLC (Merged with Cloud Cover in 2018) | Columbus, OH

Senior Consultant & Systems Engineer — Jan 2009 – Jun 2018

Key Responsibilities & Impact:

- Provided full lifecycle consulting for SMB networks (2–150 seats) across multi-site environments.
- Designed and implemented O365 migrations: email systems to Microsoft Online, SSO/AAD, firewalls, servers, wireless access.
- Delivered end-to-end I.T. solutions: ISPs, domain infrastructure, printers, workstations, and ongoing support.

TECHNOLOGY SKILLSET OVERVIEW
